OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. M. 46-11-36, dated 18th March 1912, the English or the Kanarese portion of the *Mysore Gazette* will be supplied to Shanbhogs, Patels, Nad Patels and Shekdars within the Province at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time.

6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

12. Complaints regarding non-receipt of the Gazette should be forwarded to the undersigned within a week after the date on which it is due.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{10}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

No. Fl. 9—*G. F.* 209-17-56, *dated* 1*st July* 1918.

In continuation of Notification No. Fl. 3—G. F. 209-17-5, dated 23rd April 1918, the scheme of affording facilities for the purchase of Post Office Cash Certificates in rural parts, through local Revenue Officers, sanctioned in Notification No. Fl. 296—G. The receipts detached from the certificates will then be sent by the Revenue officer to the Post Offices concerned with a letter of advice.

8. Formal acknowledgments for certificates held in the custody of the Accountant-General, Posts and Telegraphs, will on receipt from the Deputy Accountant-General, be sent by the postmasters concerned with a letter of advice in a registered cover to the Revenue officers who will deliver them to the investors on their returining the receipts previously granted to them in form C.C.-3 with the ackowledgment on the reverse duly signed by them. These receipts will then be forwarded by the Revenue officers to the Post Offices concerned with a letter of advice.

Goods marked (C) to all Destinations in Foreign Countries in Europe and on the Mediterranean and Black Seas, other than France and French Possessions, Russia, Italy and Italian Possessions, Spain and Portugal, and to all Ports in any such Foreign Countries, and to all Russian Baltic Ports.

The dates appended to various prohibitions are those of Orders of Council imposing or amending those prohibitions since the Royal Proclamation of 10th May, 1916. Where no date appears it may be assumed that the prohibition stands as it did on the 10th May, 1916.

List E (page 805).—Goods specially prohibited by Royal Proclamation of the 13th March, 1917, as amended by orders of Council of the 10th August, 1917, and the 27th November, 1917, to be exported to Switzerland. The goods in this list or consignable to the Société Suisse de Surveillance Economique. It must be understood, however, that all goods mentioned in the General List, pages 787-804, are prohibited to be exported to Switzerland whether mentioned in List E or not. Goods mentioned in the General List but not in List E are not consignable to the Société Suisse de Surveillance Economique.

List F (page 813).—Goods specially prohibited by Royal Proclamation of the 29th September, 1917, to be exported to Norway, Sweden, Denmark and Holland.

Orders of Council issued subsequently to the date of this list or published in the "Board of Trade Journal," *which may be obtained either directly or through any bookseller from the undermentioned branches of H. M. Stationery Office* :—

London : Imperial House, Kingsway, W.C. 2.
Cardiff : 1, St. Andrew's Crescent ;
Manchester : 37, Peter Street ;
Edinburgh : 23, Forth Street ;

or from Messrs. E. Ponsonby, Ltd., 115, Grafton Street, Dublin.

The attention of exporters is drawn to the fact that various articles marked B or C (such as, for instance, "Motor Vehicles and Motor Bicycles Accessories") may, in view of the percentage of copper contained in them, be subject to the Copper Prohibition (List A). (See "Copper.")

* This list cancels all similar lists issued by the War Trade Department prior to 18th March 1918.

Application must therefore be made to the War Trade Department for licenses to export goods which fall within the aforementioned copper prohibition on account of the quantity of copper contained therein. Such applications should always indicate clearly the actual quantity of copper and or copper alloys the goods contain.

OFFICE OF THE COMPILER, MYSORE GAZETTE.

NOTICE.

1. The *Mysore Gazette* is published at Bangalore every Thursday. Matter for publication in the Gazette is often sent late to the Press. This involves considerable inconvenience to the Press and expense to Government. All matter intended for publication in Parts II, III, IV, V and VI should therefore reach this office not later than Tuesday evening, and that for Part I not later than the forenoon of Wednesday, for the following Thursday's issue of the Gazette.

2. Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its resetting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect, stating the number of copies, should be made at foot of such manuscript.

3. If no instructions accompany any matter, it will be published only once.

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. Under Government Proceedings No. G. 622-32—G. M. 74-10-36, dated 27th July 1911, and Government Proceedings No. G. 4914-23—G. 6. Under Government Proceedings No. 2633-41—Mis. 558, dated 21st August 1900, the English or the Kanarese portions of the *Mysore Gazette* will be supplied at *half* rates to the members of the Mysore Representative Assembly during their tenure of office as such members.

7. All subscriptions and advertisement charges are payable *in advance*.

8. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such moneys should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the Province.

9. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons.

10. Communications on post cards or on paper less than half a sheet of foolscap, will not receive attention; and no communication should be sent on Government Service by private parties.

11. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

PART I—Section 2.

GENERAL.

No. G. 17939—*G. M.* 678-17-2, *dated* 29*th June* 1918.

It is hereby notified for general information that Messrs. C. Subba Rao, Advocate, Shimoga, and Srinivasa Dikshit, Landholder, Shikarpur, have been deputed by the District Board of Shimoga to the Representative-Assembly of 1918-19.

No. G. 247—*G. M.* 94-18-2, *dated* 6*th July* 1918.

The following letter from the Government of India, Army Department, and its enclosure regarding the training of blinded soldiers is published for general information :—

No. 7403.

GOVERNMENT OF INDIA.

ARMY DEPARTMENT.

Simla, the 6th June 1918.

I am directed to forward a copy of a draft Army Instruction giving the details of a scheme for the training of blinded soldiers of the Indian Army at the Victoria Memorial School, Bombay, and the school for the blind at Lahore. Every blinded soldier discharged from the Indian Army will in future be asked whether he wishes to be sent to one of these schools and the advantages of the training and the conditions under which it is given will be fully explained to him.

2. In order to bring the scheme before blind soldiers who have already been pensioned and sent to their homes (including those referred to in the Home Department letter No. 314 (Medical), dated the 16th August 1917), the Government of India ask that (with the permission of

(1) To the Punjab Government.

His Excellency the Governor in Council
His Honour the Lieutenant Governor in Council)

District Officers may be instructed to give the scheme the widest publicity. To assist in this, leaflets are being prepared in the various vernaculars and these will be forwarded later for favour of distribution by District Officers.

3. The Government of India further suggest that District Officers be authorised to arrange in direct communication with the Principal of the School concerned for the admission of any pensioners who may be desirous of instruction, and to advance the cost of railway fare to such pensioners and their attendants for the journey to Lahore or Bombay as the case may be. Such advances will, on the authority of this letter be refunded on application to the Controller of Military Accounts, Lahore or Poona, the former dealing with admission to the Lahore School and the latter with those to the Bombay School.

4. It will be observed that in paragraph 5 of the Army Instruction, it has been left to the Local Governments and Administrations concerned to decide, in consultation with the Military authorities, what should be the most suitable subjects of instructions to be given at the Schools. The Government of India regret that the necessity for the issue of very early orders on the subject precluded a previous reference to Local Governments in regard to these details, but they feel sure that the latter will take an interest in this question and give every assistance in their power with a view to the furtherance of this very desirable scheme.

(Sd.) A. H. BINGLEY, MAJOR-GENERAL,
Secretary to the Government of India.

Proceedings of the Government of His Highness the Maharaja of Mysore.

No. FL. 878-923—G. F. 491-11-2, DATED BANGALORE, 20TH AUGUST 1912.

ORDER.—As there is reason to believe that sufficient facilities do not exist for bringing together persons wishing to sell and those wishing to purchase the securities appertaining to the State Loan of 1906-07, the Government are pleased to direct that the Comptroller should arrange to keep in the State Huzur Treasury a register in which should be noted all particulars including value, rate, etc., relating to the intended purchase or sale of the Mysore State Securities by any member of the public. Any one willing to purchase or sell such securities should communicate his desire to the Comptroller in the State Huzur Treasury Department with all necessary particulars whereon the necessary entries in the register aforesaid should be made. When the Comptroller finds from the entries in the register that he can accommodate an intending buyer and an intending seller, he will ask the buyer if he is willing to purchase the securities required at the rate fixed by the seller. The name and address of the seller and a brief account of his title to the paper obtained from him will also be furnished to the buyer. If he agrees and pays into the nearest treasury an amount sufficient to cover cost, interest accrued and commission, the seller will be requested to effect a suitable endorsement on the security and transmit it to the State Huzur Treasury. The security will then be transmitted to the buyer through the local treasury and the buyer will take delivery of it after examining the paper and scrutinizing the endorsements so as to be satisfied about the title. The money will afterwards be made payable to the seller from any treasury in the State according to his convenience.

2. If in any case the buyer does not take delivery of the paper, the purchase money will be refunded to him but the commission will be forfeited. The security will, in that case, be returned to the owner and the paper will be renewed, if required by him without any fee. As the Comptroller's Office will always have full information about papers and loss of which by theft, etc., will have been notified, there will be no chance of such papers passing through the State Huzur Treasury and cases of intending buyers not taking delivery of the papers must be very rare.

3. The accrued interest from the beginning of the half-year up to the date of deposit of money by the buyer will be added to the buyer to the value of the security. He will therefore, get interest on his money from the next day. The seller will have to lose interest for a few days till the sale money is actually paid to him from the treasury named by him. Against this, however, there will be the free transfer of money from one place to another.

4. A commission of $\frac{1}{16}$ per cent will be charged to the seller by the Comptroller and a similar commission to the buyer, both calculated on the face value of the security. The commission will be paid by the buyer along with the purchase money and the commission payable by the seller will be deducted by the Comptroller before the sale money is paid to the seller.

5. The rates of discount or premium at which transactions will be effected will depend on the rates at which buyers and sellers will come to agreement. Naturally sellers who offer to sell at the lowest rate will be able to sell first and similarly buyers who want to buy at the highest rate will get through their transactions most expeditiously.

J. S. CHAKRAVARTI,
Financial Secretary.

In continuation of Notification No. G. 15698—G. IMPORT AND EXPORT REGULATIONS.

The 22nd June 1918.

No. 5140—The following list of restricted imports, issued by the War Trade Board of the United States of America, is published for general information :—

LIST OF RESTRICTED IMPORTS No. 1.

(W. T. B. R. 82.)

23rd March 1918.

Under the power conferred upon him by the Trading with the Enemy Act, the President, on February 14th, 1918, issued a proclamation which required an import license for all articles from all countries. The chief purpose of this was to enable this Government to eliminate less essential imports to the end that tonnage might be conserved, and additional shipping be made available for the transportation of troops and supplies to Europe. Similar steps have been found necessary by the other allies, and England particularly has found it necessary to impose most drastic import restrictions in order to most effectively devote her shipping to the successful prosecution of the war.

For many weeks past, a corps of specialists have been giving the closest study as to the manner in which this import restriction would be exercised so that the greatest saving could be accomplished with the least injury to our ordinary commercial activities. The question was still further complicated by the earnest desire of this Government to affect as little as possible the Industry and Commerce of the countries associated with us in the war, and to work as little hardship as possible to neutrals. The question involves close co-operation with the Shipping Board and consultation with the State Department, the Treasury Department, the Food Administration, and other Branches of the Government, as well as the War Trade Board, within whose Province falls the actual administration of the control. As a result of these deliberations, the War Trade Board through its Bureau of Imports publishes the first list of Restricted Imports.

Applications for license to import the articles appearing on the list will not be granted except under the following circumstances :—

(1) When the articles mentioned are actually shipped from abroad prior to 15th April 1918.
(2) When coming by rail from Mexico or Canada when the goods in question originated in those countries or in others from which such goods are being licensed for import.
(3) When coming as a return cargo from European points and then only (*a*) when coming from a convenient port, (*b*) when loaded without delay and (*c*) when the importation from Europe is not specifically prohibited in said List.

In the future, therefore, applicants for licenses to import articles mentioned in the list will be obliged to show in their applications the existence of such of the facts above outlined as will warrant the granting of such licenses. In the case of shipments from European points, the most satisfactory evidence will be proof that shipping space has been actually engaged. The present form of application for Import license will generally be found adequate for this purpose, and where this is not found to be the case, a letter setting forth the additional facts should accompany such application.

The United States Consuls have been instructed not to issue consular invoices on and after 15th April 1918, for the articles mentioned in the list without first being furnished with the number of the Import license, or being given other evidence of the issuance of such license. Shipping agencies are also advised not to accept for shipment consignments of the articles mentioned in the list without similar evidence of the issuance of the Import license. This applies only to the articles mentioned in the List. No proof of the issuance of the Import license for articles not so mentioned is to be required either by consuls before issuing consular invoices, or shipping agencies in accepting freight. It will devolve upon importers,

therefore, to advise their shipper abroad by letter or cable, of the number of their Import license so that such shipper will be able to furnish the same to the consuls and the shipping agencies. This will mean that Importers must be diligent in applying for Import licenses a sufficient time in advance of the shipment so that the number of the Import license may be communicated abroad in ample time.

It should be borne in mind by importers that the publication of this List in no wise relieves them of the necessity of applying for license to import articles not on the list, as all commodities require an import license except such as are now permitted to be imported under general licenses.

Goods of every description [other than (1) printed matter of all descriptions, and (2) personal effects accompanied by their owners], whether mentioned in the foregoing lists or not, are prohibited from export to Norway, Sweden, Denmark and Holland in accordance with the Royal Proclamation of 29th September 1917.

In this connection attention is drawn to the following reprint of a notice which appeared in the Public Press of the 4th October, 1917.

The Director of the War Trade Department calls attention to the Royal Proclamation of September 29th, 1917, prohibiting the export, as from October 8th, 1917, of all goods (with the following exceptions) to Sweden, Denmark, Norway and Holland:

1. Printed matter of all descriptions (which will remain subject to the censorship regulations).
2. Personal effects accompanied by their owner.

It is not proposed immediately to refuse all consideration of applications for the grant of licenses for the export of goods which have not hitherto been prohibited form export to Norway, Sweden, Denmark, and Holland, but which now become prohibited under the Royal Proclamation in question. Exporters are warned, however, that the continuance of this

arrangement must not be counted upon. The special arrangements in regard to the export of goods to Sweden, notified in the announcement issued by the War Trade Department on August 18th, 1916, are withdrawn as from October 8th, 1917, Sweden being thus placed on the same footing as the other Scandinavian countries and Holland. This order also applies to articles consigned by parcels post.

Notice No. Mis. C. 302-17, dated 10th June 1918.

1. 6. Resales effected under para 5 *supra*, will be at the risk of the defaulting bidder, who shall forfeit all gain; and in the event of a loss by resale or other disposal, he shall make good the deficiency between the total amount payable for the whole period under the terms of the original sale and the total amount payable by the successful bidder at the resale or by disposal otherwise. In the latter case, the forfeited deposit shall be deducted from the loss arising from the resale or other disposal, and the remainder, if any, shall be recovered from the bidder in the same manner as if it were an arrear of land revenue. (17) The licensee shall be bound by the rules in force, and those which may be issued from time to time by Government.

8. In the case of any breach of the above conditions, either by the licensee, or with his connivance and privity by any person in his employment, or in the event of the licensee neglecting to open his shop or to carry on his business with due care and attention, it shall be competent to the Deputy Commissioner to impose upon the licensee a fine not exceeding Rs. 10 for every such breach or neglect, or at the option of the Deputy Commissioner, to declare the money deposited with him forfeited, and to cancel the license and to resell the privilege or to otherwise dispose of it at the risk of the licensee; and all loss thereby caused, together with the loss accruing to Government in consequence of the licensee not carrying on his business by opening his shop on 1st July 1917, shall be made good by him. 2. The first instalment payable for the War Bonds 1921, 1923, 1925 and 1928 is 5 per cent of face value of the security applied for and this amount may be paid either in cash or by deduction from the pay of the applicant. When payment of the first instalment is made by deduction from the pay of the applicant a separate statement showing particulars of deductions from each individual's pay should be attached to establishment pay bills. But in the case of bills of gazetted and other officers who draw their own salary bills, it is sufficient if the deduction is clearly noted in them and the submission of separate statements of deductions is not necessary. The applications for subscribing to the loan should be attached to the bills in which deductions on account of the first instalment are made and the treasuries cashing such bills will endorse the fact of payment on the applications and submit them to this office on the very day on which they are presented to them.

6. The remaining 23 instalments should be paid by deduction from the pay of subscribers commencing from the pay for the month subsequent to that in which the first instalment is made; for example, if the 1st instalment is paid in cash in June 1918 the deduction from salary begins from July 1918 and the last payment will be made by deduction from the pay for May 1920. Particulars of these deductions should also be shown either on the bills themselves as in the case of gazetted officers or in separate schedules attached to establishment bills.

7. Printed forms of application (*vide* para 4 *supra*) and statement of deductions (*vide* para 5 *supra*) may be obtained from treasuries.

Notification No. 2241—Banks, dated 18th June 1918.

To

The Gazetted and other Officers drawing Salary Bills.
The Heads of Offices, and the Deputy Commissioners.

Adverting to Government Notification No. Fl. 7634—G. F. 209-17-37, dated 10th June 1918, sanctioning certain concessions to Government employees to help them in investing their savings in the Second Indian War Loan, the undersigned has the honor to issue the following instructions regarding the procedure to be followed in paying the first and subsequent instalments towards the loan applied for by subscribers.

2. The first instalment payable for the War Bonds 1921, 1923, 1925 and 1928 is 5 per cent of face value of the security applied for and this amount may be paid either in cash or by deduction from the pay of the applicant. The payment should in either case be made on or before the 14th September 1918. The treasuries will not receive any amounts, whether in cash or by deduction from pay bills, after the 14th September 1918.

3. Subscriptions cannot be made for fractions of Rs. 100.

4. Applications for subscribing to the loan should, in the case of cash payments of the 1st instalment, be presented to the treasury with the amount due. The treasury will give to the applicant a receipt for the amount paid by him and forward his application to this office.

5. When payment of the first instalment is made by deduction from the pay of the applicant a separate statement showing particulars of deductions from each individual's pay should be attached to establishment pay bills. But in the case of bills of gazetted and other officers who draw their own salary bills, it is sufficient if the deduction is clearly noted in them and the submission of separate statements of deductions is not necessary. The applications for subscribing to the loan should be attached to the bills in which deductions on account of the first instalment are made and the treasuries cashing such bills will endorse the fact of payment on the applications and submit them to this office on the very day on which they are presented to them.

6. The remaining 23 instalments should be paid by deduction from the pay of subscribers commencing from the pay for the month subsequent to that in which the first instalment is made; for example, if the 1st instalment is paid in cash in June 1918 the deduction from salary begins from July 1918 and the last payment will be made by deduction from the pay for May 1920. Particulars of these deductions should also be shown either on the bills themselves as in the case of gazetted officers or in separate schedules attached to establishment bills.

7. Printed forms of application (*vide* para 4 *supra*) and statement of deductions (*vide* para 5 *supra*) may be obtained from treasuries.

M. N. KRISHNA RAO,
Comptroller.

To—All Secretaries to Government, Heads of Departments,
Deputy Commissioners and other Heads of Offices.

Sir,

I have the honor to state that both Civil and Public Works Branches of this office are now amalgamated into one branch and the Railway Branch alone is separate. I therefore

request that you will be so good as to address all communications not intended for the Railway Branch of my office to "The Comptroller, Mysore Government," and all communications relating to matters affecting Railways, Construction and Open Lines to "The Comptroller, Railway Branch."

I have the honor to be,
Sir,
Your most obedient servant,
M. N. KRISHNA RAO,
Comptroller.

Loans No. 868, *dated* 29*th June*—1*st July* 1918.

To

The Heads of Departments and Offices
and the Deputy Commissioners, Treasury
Department of Districts.

1. House-building advances.
2. Indian War Loan advances.

As much difficulty is felt in this office in classifying the deductions made on account of repayment of House-building and other advances in establishment bills cashed at Treasuries, for want of detailed statements containing full particulars of such deductions, the undersigned has the honor to request that in future, a statement in the form annexed may invariably be attached to each establishment bill giving details of the recoveries on account of the marginally noted advances.

2. Treasury Officers are requested not to cash bills from which such deductions are made but which are not accompanied by statements in the prescribed form furnishing details for the deductions shewn.

3. Printed forms of statement of deductions may be obtained from Treasuries. A stock of forms will be sent to the District Treasuries which will arrange for the necessary supplies to the Taluk Treasuries. Until receipt of printed copies the statement may be prepared in manuscript.

To—All Drawing Officers including Deputy Commissioners of Districts and Treasury Officers.

Has the honor to observe that the instructions issued in para 9 of this office Circular No. 438, dated the 8th September 1917 do not seem to have been clearly understood as requisitions continue to be received in this office from some of the Deputy Commissioners and Heads of Departments for issue of instructions to the Treasury for payment of advances sanctioned by Government. The instructions contained in para 9 of the Circular refer to all kinds of advances sanctioned to Government Officers, whether for their personal use or for public purposes. As stated in the Circular, the original orders sanctioning the advances should be attached to the bill and the amount drawn from the Treasury. The Treasuries are authorised to cash such bills without any special authority from this office provided they

are signed by responsible Government Officers and accompanied by the original copy of the order in which the advance is sanctioned.

Where an advance is drawn in more than one instalment, it is enough if the number and date of the order sanctioning the advance, already attached to the first bill, are quoted in the receipt on which second and subsequent instalments are drawn and Treasuries should see that such reference is given before paying such advances.

To—All Treasury Officers.

Government having in their Order No. Fl. 7090-139—G. 2. In the case of bills drawn by Non-Gazetted Officers as heads of their offices and who draw their own pay, not on separate Salary Bills but along with the pay of their establishments, such as, Sub-Assistant Surgeons, Sub-Registrars, Police Inspectors, Head Masters of Schools, etc., the required certificate should be attached to the Establishment Bill for July presented for encashment in August.

3. In the case of officers who have not to account for any permanent advance such as Sub-Registrars, the part of this certificate relating to such advance should be struck out and attested.

4. A similar Certificate in Form B is necessary when a transfer of charge takes place and this certificate should be attached to the first Salary Bill of the relieving officer presented after the transfer of charge.

5. Bills not accompanied by these certificates should not be paid by Treasuries.

6. The Superintendent, Government Press, has been requested to print certificate forms A and B and supply them to all Departments on application. If printed forms are not received in time, certificates in manuscript should be attached to the bills.

Resolution.—Passed.

2. Proceedings of the Managing Committee at the meeting held on the 11th May 1918.

Resolution.—Recorded.

3. Proceedings of the Municipal City Improvement Committee.

Resolution.—Recorded.

4. Government Proceedings No. 6310-5—Ml. 96-17-25, dated the 9th May 1918, reviewing the Administration report of the Bangalore City Municipality for the year 1916-17.

Resolution.—Recorded.

5. Government Proceedings No. 6210-27—San. 105-7-5, dated the 7th May 1918, directing the reconstitution of the Central Sanitary Board for a further period of one year

Resolution.—Recorded.

SC 359

6. Government Proceedings No. 3332-4—Ml. 274-13-11, dated the 26th March 1918, passing orders in the matter of the adjustment of advances made from Municipal Funds for the formation of Shankarpur Extension.

Resolution.—The Council would respectfully desire to point out that the scheme for laying out the Shankarpur Extension was devised and carried out entirely by Government and that the Municipal Council was not consulted with regard to its initiation and execution. Government simply directed that the funds therefor should be advanced by the Municipality subject to future adjustment and the Municipal Council naturally understood that the advance would be fully repaid. The Council now find that a heavy sum of Rs. 43,723-2-7 has been withheld out of Municipal Funds so advanced. In difference, however, to the generous policy of Government in dealing with Municipal finances, the Municipal Council accept the decision in this case.

7. Government Proceedings No. 5884—Ml. 142-17-12, dated the 18th April 1918 sanctioning the bye-laws framed under Section 48 (*w*) of the Municipal Regulation for regulating the scraping of grass in Municipal lands and drains.

Resolution.—Recorded.

8. Election of members for the Mysore Representative Assembly of 1918.

Resolution.—Messrs. B. K. Garuda Char, M. Ramachandra Rao Sindhe, D. Venkataramaiya and C. V. Narasimhiengar are declared elected.

9. Revenue Secretary's letter No. 6125—Ml. 79-17-9, dated the 2nd May 1918, forwarding an application from Mr. B. V. Ramaswami Chetty, B.A., Advocate, and calling for the views of the Municipal Council regarding additional remuneration for conducting Land Acquisition Suits relating to City Improvements.

Mr. Ramaswami Chetty withdrew from the meeting. There was considerable discussion as to whether he was in order in making a representation to the Dewan against the decision of the Council. Some members were of opinion that the question having already been decided by the Municipal Council of which Mr. Ramaswami Chetty was a member, it was open to him either to accept or reject the offer instead of appealing to Government, the Government having really nothing to do with a transaction between the Municipal Council and their Advocate. Others held that the larger proportion of the cost of the City Improvement schemes being met out of State Funds, it was a question for Government to decide as to what fee should be paid to the Advocate and that therefore Mr. Ramaswami Chetty's letter to Government was perfectly in order. After further consideration of the merits of the case, one suggestion being that an Advocate should be appointed whose whole time should be at the disposal of the Municipal Council for Court work, but himself not sitting on the Municipal Council, it was proposed by Mr. B. K. Garuda Char, seconded by Mr. D. V. Gundappa and supported by Mr. K. S. Krishna Iyer:

"That the Resolution No. 4 at the Council meeting held on 2nd March 1918, proposing an additional remuneration of Rs. 50 per month to Mr. B. V. Ramaswami Chetty for conducting the Land Acquisition Suits relating to the City Improvement Schemes be adhered to."

Resolution.—Carried by a majority of 9 against 8.

(Polling *for.*—Messrs. B. K. Garuda Char, M. Ramachandra Rao Sindhe, C. V. Narasimhiengar, D. V. Gundappa, N. Surappa, K. S. Krishna Iyer, B. Krishnamurthi Rao, B. Chinaswami Chetty and M. Karthik Krishnamurthi Rao.

Against.—Messrs. D. Venkataramaiya, M. Basavaiya, B. Husman Khan, G. Siddaveerappa, M. Subbaiya, D. Adeppa, Revd. D. A. Rees and H. Ramaiya.

Krishnamurthi Rao, Municipal Councillors, requesting that the work of demolishing buildings for extending the Kitchetty chattram road to the City Railway Station road may be stayed for a time pending reconsideration of the matter.

The Municipal Engineer made a statement showing the several occasions on which the various City Improvement Schemes had come up before the Municipal Council and secured their approval. After a warm discussion on the proposal to straighten the Kitchetty chattram road, it was proposed by Mr. M. K. Krishnamurthi Rao and seconded by Mr. M. Basavaiya that this project be abandoned. Mr. K. S. Krishna Iyer proposed and Mr. D. V. Gundappa seconded an amendment "that this project be carried out, but arrangements should simultaneously be made to deepen the tank area to the south of the proposed new bund and to form a park for recreation to the north of the new bund."

To—The Heads of Departments and Offices and the Deputy Commissioners, Treasury Department of Districts.

As much difficulty is felt in this office in classifying the deductions made on account of repayment of House-building and other advances in establishment bills cashed at Treasuries, for want of detailed statements containing full particulars of such deductions, the undersigned has the honor to request that in future, a statement in the form annexed may invariably be attached to each establishment bill giving details of the recoveries on account of the marginally noted advances.

1. House-building advances.
2. Indian War Loan advances.

2. Treasury Officers are requested not to cash bills from which such deductions are made but which are not accompanied by statements in the prescribed form furnishing details for the deductions shewn.

To—All Drawing Officers including Deputy Commissioners of Districts and Treasury Officers.

Has the honor to observe that the instructions issued in para 9 of this office Circular No. 438, dated the 8th September 1917 do not seem to have been clearly understood, as requisitions continue to be received in this office from some of the Deputy Commissioners and Heads of Departments for issue of instructions to the Treasury for payment of advances sanctioned by Government. The instructions contained in para 9 of the Circular refer to all kinds of advances sanctioned to Government Officers, whether for their personal use or for public purposes. As stated in the Circular, the original orders sanctioning the advances should be attached to the bill and the amount drawn from the Treasury. The Treasuries are authorised to cash such bills without any special authority from this office provided they are signed by responsible Government Officers and accompanied by the original copy of the order in which the advance is sanctioned.

Where an advance is drawn in more than one instalment, it is enough if the number and date of the order sanctioning the advance, already attached to the first bill, are quoted in the receipt on which second and subsequent instalments are drawn and Treasuries should see that such reference is given before paying such advances.

2. In the case of bills drawn by Non-Gazetted Officers as heads of their offices and who draw their own pay, not on separate Salary Bills but along with the pay of their establishments, such as, Sub-Assistant Surgeons, Sub-Registrars, Police Inspectors, Head Masters of Schools, etc., the required certificate should be attached to the Establishment Bill for July presented for encashment in August.

3. In the case of officers who have not to account for any permanent advance such as Sub-Registrars, the part of this certificate relating to such advance should be struck out and attested.

4. A similar Certificate in Form B is necessary when a transfer of charge takes place and this certificate should be attached to the first Salary Bill of the relieving officer presented after the transfer of charge.

Loans No. 368, *dated* 29*th June*—1*st July* 1918.

To

The Heads of Departments and Offices and the Deputy Commissioners, Treasury Department of Districts.

As much difficulty is felt in this office in classifying the deductions made on account of repayment of House-building and other advances in establishment bills cashed at Treasuries, for want of detailed statements containing full particulars of such deductions, the undersigned has the honor to request that in future, a statement in the form annexed may invariably be attached to each establishment bill giving details of the recoveries on account of the marginally noted advances.

1. House-building advances.
2. Indian War Loan advances.

2. Treasury Officers are requested not to cash bills from which such deductions are made but which are not accompanied by statements in the prescribed form furnishing details for the deductions shewn.

3. Printed forms of statement of deductions may be obtained from Treasuries. A stock of forms will be sent to the District Treasuries which will arrange for the necessary supplies to the Taluk Treasuries. Until receipt of printed copies the statement may be prepared in manuscript.

No. 21—T. A. D. (A)., dated 4th July 1918.

To—All Drawing Officers including Deputy Commissioners of Districts and Treasury Officers.

Has the honor to observe that the instructions issued in para. 9 of this office Circular No. 438, dated the 8th September 1917 do not seem to have been clearly understood, as requisitions continue to be received in this office from some of the Deputy Commissioners and Heads of Departments for issue of instructions to the Treasury for payment of advances sanctioned by Government. The instructions contained in para 9 of the Circular refer to all kinds of advances sanctioned to Government Officers, whether for their personal use or for public purposes. As stated in the Circular, the original orders sanctioning the advances should be attached to the bill and the amount drawn from the Treasury. The Treasuries are authorised to cash such bills without any special authority from this office provided they are signed by responsible Government Officers and accompanied by the original copy of the order in which the advance is sanctioned.

Where an advance is drawn in more than one instalment, it is enough if the number and date of the order sanctioning the advance, already attached to the first bill, are quoted in the receipt on which second and subsequent instalments are drawn and Treasuries should see that such reference is given before paying such advances.

No. T. A. D. 19, dated Bangalore, 5th July 1918.

To—All Treasury Officers.

Government having in their Order No. Fl. 7090-139—G. F. 217-17-1, dated the 29th May 1918, directed that all Heads of Offices should attach to their Salary Bills for July, a certificate in Form A (appended) regarding the verification of the furniture and books in their offices and of the permanent advance held by them, has the honor to request that all Treasury Officers will see that the required certificate is attached to all Salary Bills for July presented for payment in August.

2. In the case of bills drawn by Non-Gazetted Officers as heads of their offices and who draw their own pay, not on separate Salary Bills but along with the pay of their establishments, such as, Sub-Assistant Surgeons, Sub-Registrars, Police Inspectors, Head Masters of Schools, etc., the required certificate should be attached to the Establishment Bill for July presented for encashment in August.

3. In the case of officers who have not to account for any permanent advance such as Sub-Registrars, the part of this certificate relating to such advance should be struck out and attested.

4. A similar Certificate in Form B is necessary when a transfer of charge takes place and this certificate should be attached to the first Salary Bill of the relieving officer presented after the transfer of charge.

5. Bills not accompanied by these certificates should not be paid by Treasuries.

6. The Superintendent, Government Press, has been requested to print certificate forms A and B and supply them to all Departments on application. If printed forms are not received in time, certificates in manuscript should be attached to the bills.

No. T. A. D. A. 79, dated 16th July 1918.

To—Deputy Commissioners, Treasury Department of Districts and the Officer in charge, State Huzur Treasury, Bangalore.

Some of the Treasuries do not seem to know how to show in accounts deficiencies or excesses found in their cash balances. The following instructions are issued for their guidance :—

(1) When a deficiency is found in the cash balance of any day, it should be made good *at once* by the person responsible for it, and the closing cash balance of the day should be the full balance including the amount lost and made good. If, however, for any exceptional reason, the amount of a deficiency is not immediately restored to the Treasury balance, it should be charged in the accounts of the day on which the deficiency is discovered, on a voucher in the following form, signed by the Treasury Officer.

(1) When I verified the cash balance to-day, I found it to be less than the correct account balance by Rs.....

(2) This amount could not be restored to the Treasury balance to-day for the following reasons.

.....

(3) I have submitted a report to.....about the discovery of this deficiency in my letter No.....of to-day.

(4) The amount has been charged as an advance recoverable from (here should be specified the name of the person who should make good the amount) in to-day's accounts and it will be recovered and credited in my accounts for.....Treasury Officer.

2. It should be remembered that the Treasury cash balance cannot be kept short owing to a deficiency due to the negligence of the Treasury staff. It should be made good on the very day on which the shortage is found. It is only in extremely rare cases and in quite exceptional circumstances that the deficiency can be allowed to be treated as a recoverable charge in the accounts of the day and even in such a rare case, the shortage must be made good the very next day. Some Treasuries keep the accounts of the day on which a deficiency is found open till the amount is recovered. This is a serious irregularity and very severe notice will be taken of the conduct of officers responsible for such irregularity.

3. When any excess is found in the cash balance, it should be credited to Revenue Deposits on the day on which the excess is found pending enquiry and disposal of the amount. If the investigation does not establish beyond doubt that the excess is due to a particular person, it should be credited to Government under "III Miscellaneous other receipts." If the amount is proved to be payable to any particular person, the refund should be made under the orders of the Deputy Commissioner.

Comptroller.

ii. Letter No. 49, dated the 21st July 1918, from the Special Revenue Officer, Shimoga, to the Secretary, Central Committee, forwarding a copy of the resolution passed by the Malnad Improvement Committee of Shimoga at their meeting held on the 30th June 1918. (Appendix "A.")

iii. Responsibility sheet drawn up by the Secretary indicating definitely the responsibility of the officers and the Committees concerned for carrying out the various measures contemplated under the scheme. (Appendix "B.")

iv. Memo of suggestions furnished by the Secretary for carrying out the engineering portion of the malnad improvement work. (Appendix "C.")

v. Note drawn up by the Secretary in the matter of the grant of increased facilities for the spread of education in the malnad. (Appendix "D.")

Resolution.—After a careful study of the Government Order, the Committee discussed the several points referred to therein in all their aspects and passed their resolutions as hereunder:—

(*a*) That Taluk Committees be instituted at each taluk and sub-taluk in the malnad to facilitate the work of the District Committees in carrying out the various measures of improvement contemplated under the scheme.

(*b*) The additional allotment sanctioned for carrying out the preventive and curative measures may be utilized by the District Committees concerned for opening more dispensaries, itinerant and semi-itinerant and for improvements in sanitation in the proportion, which they deem fit, having due regard to the requirements of the respective districts.

(*c*) An expenditure of Rs. 7,50,000 having been sanctioned by Government for developing the resources and training and educating the people in the malnad, the Government may be requested to instruct the several departments concerned to place for five years commencing from 1918-19, the needful funds at the disposal of the Committees of Shimoga, Kadur and Hassan in the ratio of 5, 3 and 2, respectively, and to carry out the aforesaid measures of development in co-operation with the several Committees. As regards the expenditure for making advances and for carrying out reproductive works, each District Committee will do its best to raise its own quota of loan provided the Government guarantee the repayment of the loans as well as interest thereon, each District Committee being left to itself to formulate its own proposals and schemes in regard to its own requirements.

(*d*) As regards the Engineering establishment required for carrying out the development operations contemplated under the scheme, the Committees are unanimously agreeable to the suggestions offered in the matter of the appointment of an Assistant Engineer to help the Special Revenue Officer to carry out the engineering portions of the works under the scheme, on the lines suggested in the Secretary's note. The existing agency for carrying out the preventive and curative measures requires re-organization on the lines suggested by the Shimoga District Committee to cope with the extra work devolved on it under the revised scheme for the improvement of the malnad. With this modifications that instead of a Sub-Engineer on Rs. 150 per month, there should be an Assistant Engineer of the last grade, as already contemplated above.

(*e*) The Superintending Engineer, Northern Circle may be made a member of the Central Committee.

(*f*) The responsibility sheet drawn up indicating definitely the responsibility of the officers and the Committees concerned for carrying out the various measures under the scheme is suitable and may be approved and adopted.

(*g*) With regard to the grievances of the malnad raiyats in forest matters, although much has been done to redress the same, there are still several matters, which require further investigation and relief.

(*h*) As regards the attraction of settlers to the malnad, the present practice in the three districts has been to encourages people from both out-side and within the State. In para 8, however of the revised Government Order now under discussion, Government have observed that there are facilities in the malnad for planting a large peasant population from the maidan parts of the State. With a view to avoid all misapprehension in the matter, the Committee is of opinion that Government may be requested to lay down a definite ruling whether people from the adjoining West Coast districts and generally from outside the State do not now come within the perview of the Government Order No. 8201-7—San. 99-15-5, dated the 8th May 1916, granting certain concessions to persons intending to settle permanently in the malnad, and whether these concessions should be confined only to people coming from the maidan parts of the State.

It was further resolved that, considering the scheme for the attraction of settlers has been in operation for the last two years and that a number of families have already been settled, and considering also that this work requires to be kept up, whereas no provision has been made for the same in the sanctioned budgets of any of the three districts, the Government may be requested to place immediately at the disposal of the committees a special allotment of Rs. 30,000, for the continuance of this item of work under the Committee's programme.

(*i*) With regard to the spread of education in the malnad, in the Order of Government, dated 24th February 1914, sanctioning the Malnad Improvement Scheme, the Education Department was requested by Government (*vide* para 12 of the order) to take certain measures in the matter. In the order now under discussion, this item seems to have been omitted in the programme of work for development operations. Having regard to the supreme importance of this subject, the Committee are unanimously of opinion that action on the general lines indicated in the note drawn up by the Secretary is very necessary and that a recommendation may be sent to Government to allot separate funds for the malnad, out of the Education budget every year and to grant increased facilities for the spread of education in the locality.

3. Government Order No. 6915-7—San. 76-17-8, dated the 10th June 1918, sanctioning the scheme for the training of five local dais at Shimoga in the elements of midwifery at a cost of Rs. 1,260 per annum tentatively for a period of one year.

Recorded.

4. Government Notification No. 6964—San. 104-17, dated the 12th June 1918, declaring vaccination compulsory for a period of five years in the rural areas under the Malnad Improvement Scheme in the Shimoga District.

Recorded.

(APPENDIX "A.").

Proceedings of the seventh Meeting of the Malnad Improvement Committee, Shimoga, held on the 30th June 1918.

* * * * * *

2. Government Order No. 6561-3—San. 72-17-2, dated the 22nd May 1918, sanctioning the continuance of the Malnad Improvement Scheme for a further period of five years and calling for the proposals of the Central Committee for giving effect to the scheme as out-lined therein.

Also statement furnished by the Secretary, regarding the readjustment of the existing staff and of the additional staff required for carrying out the various measures under the scheme.

Resolution.—After a careful study of the Government Order, the Committee discussed at length the several points referred to in the order and passed the following resolutions:—

1. That Taluk Committees be formed at the Headquarters of each taluk and sub-taluk to help the District Committee in carrying out the measures contemplated under the scheme.

2. Out of the additional grant that may be sanctioned to this district for sanitary and medical relief, one-half may be utilized for opening of more dispensaries and the other half for sanitary improvements.

3. The grievances of the malnad raiyats in forest matters have not entirely disappeared and persistent representations at Taluk and District Conferences appear to need further careful enquiry.

4. A debenture loan of Rs. 3,75,000 may be raised in the Shimoga District under the following conditions for making advances granting loans, formation of blocks, construction of kattes and new tanks, for the supply of labour and for the relief of agricultural indebtedness:—

(*a*) The debentures to be repayable in ten years.

(*b*) Interest to be paid annually to the debenture holders at 6 per cent.

(*c*) Government to guarantee the return of the loan and the payment of interest from year to year.

5. As regards the agency required for the execution of the several measures, it was resolved as follows:—

(1) The annual allotment to the Committee under the heads preventive and curative measures and development operations can be worked with the existing agency provided it was supplemented by the addition of a Public Works Department Officer on Rs. 150 per mensem, together with two more Sub-Overseers.

(2) The attraction of settlers to the malnad is an item, which requires close and constant attention, and for the development of this branch of work the appointment of two Overseers on a salary of Rs. 80 per mensem, is necessary.

(3) Considering the nature of the extended operations of the scheme and the increased allotment both for preventive and curative measures and also for development operations, it is desirable to have a controlling officer of superior status on a monthly salary of Rs. 400, rising by annual increment of Rs. 50 to a maximum of Rs. 600, with the existing local allowance of Rs. 100 per mensem. Further in the opinion of this Committee, the Special Revenue Officer should be continued to control the entire operations in the district.

(4) Considering the difficulty in securing the services of a properly trained staff for temporary service in the malnad an increase in the scale of pay and number of the professional and the clerical staff as now proposed is also necessary.

(5) For the foregoing reasons the scale of establishment as detailed in Appendix "A" may be recommended for the sanction of Government.

6. As regards the attraction of settlers to the malnad, the members of the Committee expressed the following views:—

Mr. Venugopaliah stated that even if the maidan people come to the malnad, they do not like to settle in the heart of the malnad.

Mr. Venkata Rao, R. Nijagal stated that it is not possible to get maidan peoples to the malnad.

Mr. C. Vamana Rao, Nagar, said that the natural supply of labour is from the West Coast and that 'Khushki' cultivation which is a necessity for the maidan raiyat was not possible in the malnad.

Mr. Gopalraj Urs said that the maidan parts of the State are not so over-crowded as they are presumed to be. The people from Channarayapatna and other places go to Bombay and other places on account of the various activities that are going on there and it is not possible to give such facilities to the people here. For instance in Bombay, a man earns three rupees a day for driving a hackney coach.

Mr. S. N. Appanna Iyengar remarked that the Channarayapatna and Kunigal raiyats could only be settled in semi-malnad tracts as they could not stand a rainfall of over 80 inches a year.

Resolved that with a view to avoid misapprehensions on the subject, the Government be requested to pass definite orders for the Committee's guidance on the policy to be adopted in the matter of attracting settlers to the malnad both from within and without the State.

EXPLANATORY MEMO ACCOMPANYING (APPENDIX "A").

The total allotment for the district both under preventive and curative and development measures comes to 2½ lakhs of rupees as detailed hereunder:—

	Rs.
1. Preventive-curative	1,00,000
2. Roads	50,000
3. Attraction of settlers (Advance to be recovered later on) ...	15,000
4. Forest Industries	10,000

6. Labour (Advance to be recovered later on) ...	10,000
7. Relief of indebtedness (Advance to be recovered later on) ...	50,000
Total ...	2,50,000

Of these items 1 to 4 are items of expenditure, which will have to be incurred irrespective of any loans from the people.

The allotment for this district for 1917-18 was Rs. 71,000, inclusive of the extra Rs. 10,000 which the Government was pleased to sanction on a further representation by the District Committee. This allotment was worked out with an establishment of Rs. 21,000, the percentage of the cost of establishment to total allotment working up to 29·5.

It is now proposed to entertain an establishment of Rs. 33,200 per mensem to work out the allotment of Rs. 1,75,000, which will have to be spent out of Government grants irrespective of any loans. The proportion of the cost of establishment with this allotment would then be 18·9.

If however, the total allotment of Rs. 2½ lakhs is taken into consideration, the proportion would still further be reduced to 13·28.

APPENDIX "D."

Educational Development and Malnad Improvement.

In the order of Government dated the 24th February 1914, Government specify several heads under which certain departments of the State have to take action (*vide* para 12) towards the development of the Malnad.

The Education Department has been asked to show progress with regard to the following items:—

1. Increase of primary schools;
2. Easy books on Hygiene;
3. Special Industrial Schools;
4. Medical Inspection of Schools;
5. Physical culture; and
6. Special Scholarships.

The action taken under each of the above items is detailed hereunder:—

Primary Schools.

The total number of schools opened up to 30th March 1918, in the Malnad parts of the State since 1st July 1914, is 404 of which 110 are adult schools, 289 aided village elementary schools and 5 compulsory education schools. (*Vide* Inspector-General of Education's letter dated the 30th March 1918.)

Easy books on Hygiene.

Hygiene is now taught in all Lower Secondary Schools as an optional subject and a revised book in Kannada is said to have been written. (*Vide* Inspector-General's letter dated the 10th April 1916.)

Special Industrial Schools.

There are three Industrial Schools in the Malnad, one at Hassan, one at Sagar, and one at Shimoga.

Medical Inspection of Schools.

A scheme for the medical inspection of school children in district headquarter towns has been approved by Government in their Order No. 5220-18—Edn. 164-14-2, dated 24th March 1916.

Physical Culture.

Gymnastic Instructors have been appointed to Anglo-Vernacular Schools at Shimoga, Kallurkatte, Sagar, Chikmagalur and Tarikere and in some other schools also.

Special Scholarships.

The Government pays concessional rates of interest on the Tirthahalli Jubilee Fund and Kanle Devappa's Fund at Sagar.

Special Schools.

There are also two District Normal Schools for malnad teachers one at Hassan and another at Shimoga.

Special concessions.

An allowance of Rs. 2 to all teachers in the Government Village Elementary Schools in the Malnad drawing a pay of Rs. 10 was sanctioned in Government Order No. 4511-2—Edn. 163-14, dated the 10th March 1918. The privilege extends to all Mos. Eg. School teachers in the Malnad area in receipt of not more than Rs. 12. The sanction is only for three years.

Under the grant-in-aid system in the malnad a school earns a claim to grant if the number of pupils on the roll and the avarage daily attendance are 10 and 7 unlike similar schools in the maidan where the figures are 15 and 10 respectively.

Buildings.

Since July 1914 the department has paid a sum of Rs. 6,644 as grant to supplement peoples' contribution towards the cost of 21 school buildings. The Shikarpur Anglo-Vernacular School was built in 1914-15 entirely at Government cost. The construction of nine Vernacular English schools and 4 Secondary schools at a total cost of Rs. 40,000 to Government has also been taken on hand. (*Vide* Inspector-General's letter dated the 30th March 1918.)

Present Proposals.

PRIMARY SCHOOLS.

In the Shimoga District alone representations were received at Taluk and District Conferences last year for 115 boys' schools.

Including the Kadur and Hassan Districts the number of such schools required would be at least 200. Then again three Hindustani schools, 50 girls' schools, and 60 depressed classes schools have also been asked for in the Shimoga malnad alone.

For the entire malnad area therefore not less than 400 primary schools of all descriptions would be needed according to the wishes of the people. The cost of establishing these schools considering that the boys' schools are aided would be Boys' schools $200 \times 9 \times 12$ taking Rs. 9 as the average grant-in-aid per mensem per school Rs. 21,600

Other schools $200 \times 12 \times 15 =$ Rs. 36,000

Total Rs. 57,600

or roughly Rs. 60,000

Then there arises the question of aid to school building or the construction of Government buildings in urgent cases.

For the Shimoga district alone, the people have asked for 110 school buildings. Taking the other two districts of Hassan and Kadur into consideration the number of such buildings required would be at least 200. According to the existing grant-in-aid rules, half the cost of the Vernacular English School buildings will be found by Government. (*Vide* Section 7 of Grant-in-aid Code of 1914.)

Taking the cost of an average Primary School building at Rs. 600 (the dimensions of the building being 15 by 20 with Mangalore tiled roofing) the total Government contribution for 200 buildings would be Rs. 60,000.

It would be a further impetus to the spread of education in the malnad with the grants in the case of school buildings were liberalized so as to make the Government share into $\frac{3}{4}$ and the peoples share to $\frac{1}{4}$. It has also to be observed that in some cases such as those of girls' schools and schools for the depressed classes, even free grants of buildings by Government would be an additional encouragement for the popularization of education in the most backward tracts of the malnad. The total out-lay on these buildings for a year may be put down at Rs. 75,000.

Easy books on Hygiene.

At present Hygiene is only an optional subject in Lower Secondary schools. (*Vide* Inspector-General's letter dated 10th April 1916.)

It would be better in the interest of the malnad education if this subject was made compulsory in all schools and easy books on malnad sanitation in Kannada were got prepared and taught to all school boys.

A health manual for the malnad in Kannada would also be useful and instructive for the adult population.

The cost of preparing such books may be put down roughly at Rs. 5,000 calculating that at least 10,000 copies are printed and also suitable rewards are paid to people who write these books.

Special Industrial Schools.

Practical instruction classes having special reference to malnad conditions would have to be opened in at least 200 centres for the entire malnad during the coming year. Taking the average pay of the Instructor at Rs. 15 a month the total cost would be $15 \times 200 \times 12 =$ 36,000 or roughly 40,000.

Fresh Industrial Schools will have to be opened at six more centres in the malnad three for the Shimaga District, *viz.*, in Tirthahalli, Shikarpur and Kallurkatte, two in the Kadur District and one in the Hassan District. The annual cost of an Industrial School is Rs. 2,400. The total cost would be Rs. $2,400 \times 6 = 14,400$ or roughly 15,000.

Medical Inspection of Schools.

The rules in force with regard to district headquarters will have to be extended to the entire malnad area. Special staff will have to be entertained for this work wherever necessary. For the entire malnad area, there are about 1,500 schools. Even granting that the Assistant Surgeons in charge of semi-itinerant dispensaries may be asked to undertake this work as a regular part of their programme, the number of such schools within these areas will not perhaps be more than 200. Some special agencies such as an Assistant Surgeon for each of the districts of Kadur and Hassan with two Assistant Surgeons to help him and two Assistant Surgeons and 4 Sub-Assistant Surgeons for the Shimoga District would be necessary to be constantly touring and inspecting the health of all the school-going children in the malnad area. The inspection of each school at least twice in a year would then have been assured. The cost of this scheme would come to Rs. 12,000 a year including the cost of medicines, etc., the cost being met by the Education and the Medical Departments in equal proportion.

Physical Culture.

A permanent Instructor for each Anglo-Vernacular School exclusively would be very necessary calculating the Instructor's pay at Rs. 30 a month. There would then be required 20 gymnastic Instructors. The cost would come to Rs. $30 \times 12 \times 20 = 7,200$ or roughly 8,000 a year.

Special Scholarships and free ships.

The total number of scholarships in the State for primary, secondary and higher education is 3,549. Of the 1,100 are for primary education, 600 being for girls and 500 for the depressed classes. Those for secondary education are 2,508, the rest, *i.e.*, 141 being scholarships for University education.

At least 15 per cent of the existing scholarships will have to be earmarked and reserved for malnad students. In addition to this, the following special scale of scholarships designed purely for malnad students for secondary and higher education seems desirable.

	Rs.
(1) Fifteen scholarships of Rs. 15 each to each malnad district for students studying in the College classes at the rate of 5 scholarships for each class $15 \times 15 \times 3 \times 12 =$	8,100
(2) Ten scholarships of Rs. 10 each for each malnad taluk to enable students who have passed the Lower Secondary Examination to continue their studies in High School classes $19 \times 10 \times 10 \times 12 =$	22,800
(3) Fifteen scholarships of Rs. 5 each for each malnad taluk to enable students who drop away from the III class for want of encouragement to continue their studies to Lower Secondary and upwards $19 \times 15 \times 5 \times 12 =$	15,100
Total	46,000

Encouragement in the shape of more free ships and half free ships to deserving students in the malnad is also necessary. The percentage of these free ships and half free ships may be increased from 30 to 40 per cent.

Special measures.

GRANT-IN-AID SCHOOLS.

Grant-in-aid schools in the malnad that have worked satisfactorily for three years may be converted into Government Vernacular English Schools.

Girls' schools.

In the interest of advancement of female education in the malnad, the opening of more schools is very desirable and there should at least be a girls' school at each taluk headquarter. The existing girls' schools should also be put on a more satisfactory basis on the following lines. The pay of the mistresses at the district headquarters may be fixed at Rs. 100 and those of taluks at Rs. 50, the minimum pay of teachers in the girls' schools being fixed at Rs. 20 per month. The cost of a girls' school at district headquarters should be at least Rs. 600 and that in the taluk Rs. 400 per month. The extra cost involved under this proposal may be roughly taken to work up to Rs. 80,000.

Hostels with resident wardens.

The opening of hostels with resident wardens in at least 10 centres in the malnad, 5 in the Shimoga District 3 in the Kadur District, and two in the Hassan District may be sanctioned at a monthly cost of Rs. 50. The initial expenditure for each hostel for the purchase of vessels, etc., may be roughly put down at Rs. 200. The total outlay for these hostels will thus be Rs. 8,000.

Panchama Boarding homes.

Panchama boarding homes may be opened in the headquarter place of each district to encourage the advancement of education among these people. The total annual cost for this item would roughly be Rs. 4,000.

Normal school.

Grant-in aid school masters are at present sent to Tumkur for training. To avoid this inconvenience and to facilitate the training of more teachers every year, one more Normal School may be opened in the malnad. This may preferably be done at Sagar for the present. The cost being put down at Rs. 16,000.

Inspecting staff.

The number of inspecting staffat present is too small. Close and constant supervision of the work of the teachers is very necessary for the satisfactory working of the schools already started. There should at least be one inspecting officer for each taluk or for every 100 schools. For the three malnad districts, there would at least be required 20 Inspecting Officers of the status of an Assistant Inspector on Rs. 50 with the necessary staff for each taluk or centre. The recurring charges for every such establishment may be roughly put down at Rs. 120 per mensem with an initial expenditure of Rs. 100. The total cost would then be about Rs. 30,000.

Increase of pay and allowances to school masters.

The difficulty of securing the services of qualified teachers in the malnad is keenly felt. The present rate of pay to these teachers is not at all adequate. To make these appointments more attractive, it is very necessary to increase the minimum pay of teachers serving in the malnad to at least Rs. 15 a month. As a general proposition all teachers serving in the malnad whose pay is above Rs. 15 but does not exceed Rs. 50 may be granted a malnad allowance equal to 1/10 of their pay. The extra cost involved may be put down roughly between Rs. 80,000 and 1 lakh.

N. B.—At present a needless distinction has been made of granting an allowance of Rs. 2 to teachers drawing pay under Rs. 12 per mensem provided they are hobli school masters. This concession should at once be extended even to teachers serving in the taluk and district headquarters in the malnad.

Increase of Book-Depots.

Increased facilities for obtaining books may be created by opening more depots in convenient centres.

A Science section for Shimoga Collegiate High School.

In addition to history section, a science branch may also be established at Shimoga for the convenience of malnad students desirous of taking up that subject. The out-lay of this section both initial and recurring may be put down at Rs. 85,000.

MYSORE STATE LOAN OF 1906-07.

AND

BOWRINGPET-KOLAR RAILWAY DEBENTURES OF 1912.

Dated 14th February 1917.

With reference to Government Notification No. Fl. 9254—G. F. 491-11-2, dated 20th August 1912, and No. Fl. 1118—G. F. 28-14-2, dated 7th September 1914, the following rates offered by applicants for purchase and sale of 4 per cent promissory notes of the Mysore State Loan of 1906-07 and of the Bowringpet-Kolar Railway Debentures, are published for public information.

2. Communications regarding the same should be made to the Comptroller in the State Huzur Treasury Department by intending buyers and sellers.

3. The quotations are as under :—

Buyers of State Loan Pro-notes offer to buy at discount in small quantities.	1. Sellers of State Loan Pro-notes are willing to part at 97. 2. Sellers of Bowringpet-Kolar Railway Debentures in small quantities offer to sell at 1 to 5 per cent discount.

The last actual transaction took place as under:—

Promissory notes of the State Loan of 1906-07 at 97.

No. T. A. D. A. 79, dated 16th July 1918.

To—Deputy Commissioners, Treasury Department, of Districts and the Officer in charge, State Huzur Treasury, Bangalore.

Some of the Treasuries do not seem to know how to show in accounts deficiencies or excesses found in their cash balances. The following instructions are issued for their guidance :—

(1) When a deficiency is found in the cash balance of any day, it should be made good *at once* by the person responsible for it, and the closing cash balance of the day should be the full balance including the amount lost and made good. If, however, for any exceptional reason, the amount of a deficiency is not immediately restored to the Treasury balance, it should be charged in the accounts of the day on which the deficiency is discovered; on a voucher in the following form, signed by the Treasury Officer.

(1) When I verified the cash balance to-day, I found it to be less than the correct account balance by Rs.....

(2) This amount could not be restored to the Treasury balance to-day for the following reasons.

.....

.....

(3) I have submitted a report to..... about the discovery of this deficiency in my letter No.....of to-day.

(4) The amount has been charged as an advance recoverable from (here should be specified the name of the person who should make good the amount) in to-day's accounts and it will be recovered and credited in my accounts for.....Treasury Officer.

2. It should be remembered that the Treasury cash balance cannot be kept short owing to a deficiency due to the negligence of the Treasury staff. It should be made good on the very day on which the shortage is found. It is only in extremely rare cases and in quite exceptional circumstances that the deficiency can be allowed to be treated as a recoverable charge in the accounts of the day and even in such a rare case, the shortage must be made good the very next day. Some Treasuries keep the accounts of the day on which a deficiency is found, open till the amount is recovered. This is a serious irregularity and very severe notice will be taken of the conduct of officers responsible for such irregularity.

3. When any excess is found in the cash balance, it should be credited to Revenue Deposits on the day on which the excess is found pending enquiry and disposal of the amount. If the investigation does not establish beyond doubt that the excess is due to a particular person, it should be credited to Government under "III Miscellaneous other receipts." If the amount is proved to be payable to any particular person, the refund should be made under the orders of the Deputy Commissioner.

(1) As soon as the Government Order sanctioning the advance is received by the Head of the Department or office and communicated to the officer to whom the advance is sanctioned, the latter should execute the bond, if any, required by the rules.

(2) The receipted bill or voucher presented at the Treasury for payment of the advance should bear a certificate of the Deputy Commissioner to the effect that the necessary bonds have been executed and should be accompanied with the duly authenticated copy of the Government Order sanctioning the advance received by the officer drawing the advance. This copy should be attached to the voucher sent to this office in support of payment made. Receipts for payment of second instalments of house-building advances should bear a certificate of the Deputy Commissioner to the effect that he has satisfied himself that the first advance had been fully spent upon the building and the second instalment may be paid.

(3) In the case of advances to Establishments, arrangements will be made by the Head of the Office for recovering the advance in accordance with the rules. The voucher for payment of the advance should be countersigned by the Head of the Office who draws the salary of the officer receiving the advance before it is presented at the Treasury. Such countersignature is necessary to keep the Head of the Office informed of the advance drawn and to enable him to make the necessary deduction from salary drawn for the debtor. Bills of Gazetted Officers need not be countersigned as they will themselves arrange to make the deductions from their salary bills. Particulars as to the nature of the advance, the serial number of the instalment and the amount deducted should be clearly noted in their Salary Bills.

2. Papers *re* the question of dividing between the Municipalities, the Government and the District Board the proceeds from toll gates near Municipal towns.

Resolution.—The Council beg to point out that the cost of upkeep of the Provincial and District Fund roads passing through the City, a distance of about 25 miles comes to nearly Rs. 25,000 a year. The Municipality have further to maintain an additional length of about 105 miles of roads and lanes in the City. In spite of repeated protests, the grants to the Municipality of Rs. 5,600 annually from Provincial Funds and of Rs. 1,000 annually out of District Funds were withdrawn one after the other. The present proposal to divide the tolls is the third step in the same direction. The system of dividing the toll revenue as proposed by Government does not seem to prevail in any of the Principal Cities of India. Even in some of the smaller Municipalities outside Mysore, the various District and other conferences dealing with the subject have been urging the stoppage of such apportionment. The proposal was also condemned in the Mysore Local Boards and Municipal Conference of 1915. Arguments based on the failure of District Boards to maintain their roads in order, involving inconvenience to traffic entering into Municipal towns, serve no useful purpose as such traffic is almost invariably more conducive to the material advantage of the residents of District Board areas than to Town-dwellers. The Council further beg leave to state that in the case of a large Municipality like the Bangalore City, the toll is an indirect tax on the population of the Municipal area, there being practically no question of through traffic entering into the City at one end and going out intact at the other end. The proposal is no doubt very convenient to District Boards for augmenting their income by vicarious methods and enriching the rural at the expense of urban population. But the Council consider that there is no question of equity involved in such a transaction. Further the income from this source has been enjoyed by the Council for the past 18 years without any apportionment. Under these circumstances they respectfully decline to entertain the proposal.

Legislative Measures and Rules thereunder.

NOTIFICATION.

No. 493—L. C., dated 13th July 1918.

Under Rule 31 of the Rules for the conduct of business of the Mysore Legislative Council, the accompanying Bill further to amend the Mysore Village Courts Regulation, 1913, is published for general information with the statement of objects and reasons.

By Order,
G. SREENIVASA IYER,
Secretary to the Mysore Legislative Council.

Bill further to amend the Mysore Village Courts Regulation, 1913.

Whereas it is expedient further to amend the Mysore Village Courts Regulation, 1913; His Highness the Maharaja is pleased to enact as follows:—

1. Section 75 shall be numbered as sub-section (1) of section 75; the second sentence thereof, *viz.*, "The District Judge or the Deputy Commissioner or the Munsiff may at any time call for and inspect the registers and records of Village Courts" together with the marginal note thereto shall be omitted, and the following new sub-section shall be added to section 75 as sub-section (2).

(2) "The District Judge, the Munsiff, the Deputy Commissioner or any Revenue Officer of the District not below the rank of Amildar, if authorised generally or specially by the Deputy Commissioner in this behalf may at any time call for and

Inspection of registers and records.

2. At the end add the following new chapter and section.

"Chapter VIII.

"Power to make rules."

Power to make rules.

"77 (1) Government may make rules to carry out the purposes and objects of this Regulation.

(2) In particular and without prejudice to the generality of the foregoing power such rules may provide for and regulate—

(*a*) The appointment of Village Munsiffs and members of a Bench under sections 4 and 6;

(*b*) The procedure to be followed by Village Courts.

(*c*) The service of process and execution of decrees under section 28.

(*d*) The grant of copies of decrees and other records.

(*e*) The levy of fees for the service of process, execution of decrees, and grant of copies."

Statement of Objects and Reasons.

Under the Village Courts Regulation, 1913, inspection of Village Courts may be conducted either by the District Judge or by the Deputy Commissioner or the Munsiff. But it is deemed desirable that the inspection work may also be entrusted to the officers of the Revenue Department not below the rank of Amildars who may be generally or specially deputed by the Deputy Commissioner in this behalf. The work can be conveniently done by them either when conducting the jamabandy or when touring in their jurisdiction. Hence an amendment is proposed to section 75 to achieve this object.

Further, at present, there is no power for Government to frame rules for supplying copies of decrees and other records in Village Courts or for the levy of fees for the purpose. Therefore a new section is proposed to be inserted at the end to empower Government to frame rules for these and for such other matters.

Statement of objects and reasons.

The question of inspecting and testing the steam-boilers in the State has been engaging the attention of Government for the last few years. More than 300 boilers are in use in the Kolar Gold Fields and nearly 100 in other parts of the State. Various precautions are necessary to safeguard the lives of the large number of employees. Provision has to be made for the periodical inspection of the boilers and it is necessary to see that necessary steps are taken to prevent accidents. It is therefore deemed desirable to introduce into Mysore, a Steam-boilers and Prime-movers Regulation. The Bill has accordingly been drafted on the lines of the Madras Steam-boilers and Prime-movers Act, 1893.

There will be a separate tender for each coupe. The deposits of unsuccessful tenderers will be returned at once and of the successful tenderers will be held as security for the due performance of the contract.

4. The final acceptance of the tenders will rest with the Conservator of Forests who does not bind himself to accept the lowest or any tender or to assign any reason whatever for the rejection of any tender.

5. The successful tenderer will, within a week of the receipt of the intimation of the acceptance of his tender or tenders, execute an agreement accepting the terms specified below; in default, the order of acceptance will be cancelled and the deposit forfeited to Government:—

(*c*) That he shall fell the trees he has purchased and dress the logs on the spot. He will not be bound, however, to remove such logs as the District Forest Officer may declare to be unsound and unfit for sale without recourse to sawing.

(*d*) That only saws will be used for cutting up the logs into the required lengths, and that, while he is permitted to remove whitewood, knots and flutes, he shall cause no unnecessary waste in dressing the logs.

(*e*) That he binds himself to pay for and remove all marketable portions of a tree, either in logs pieces or poles.

(*f*) That the timber prepared out of each tree shall be measured and stamped by the Range Officer or such other officer as the District Forest Officer may authorise at the stamp.

(*g*) That he shall pay for all the timber measured as per clause (*f*) before removal from the forest or the depot fixed by the District Forest Officer.

(*h*) That all removal shall be effected under passports issued by the Forest Officer in charge of the forest or depot and on presentation of the Treasury receipt for the value of the timber he intends to remove.

Shanbhogs' Conference.

Proceedings of the Government of His Highness the Maharaja of Mysore.

READ—

Letter dated 7th September 1917, from Rajasabhabhushana Dewan Bahadur K. P. Puttanna Chetty, Esq., C.I.E., President, Shanbhogs' Conference, Bangalore, submitting for favourable consideration a copy of the Resolutions passed at the Conference which met on the 30th and the 31st August and 1st and 2nd September 1917, at Gavipuram. (Printed as an accompaniment.)

2. Letter No. D. Dis. 787—G1., dated 28th January 1918, from the Revenue Commissioner in Mysore, furnishing his opinion in regard to each of these resolutions.

ORDER No. R. 760-809—L. R. 217-17-4, DATED 10TH JULY 1918.

Government have carefully considered the various proposals put forward and are pleased to order as follows:—

1. With regard to the revision of the potgi (Resolution I), Government observe that the question deserves consideration and separate orders will issue in due course after further investigation.

As regards the suggested change in the form of address (Resolution II), Government agree that not only shanbhogs but also patels as heads of villages should be addressed by subordinate officers of other than the Revenue Department drawing salary of less than Rs. 50 by means of yadis and not hukums.

With reference to Resolution III, the attention of all Revenue Officers may be drawn to Rules 9 and 10 of the Village Officers Regulation, which require that explanation should invariably be obtained and recorded before any punishment is given; and strict compliance with these rules may be insisted upon.

The resolution of the Conference (No. IV) that at least one of the village servants should be deputed for work under the Shanbhog, is approved, subject to the condition that this does not clash with the performance of the other duties of these functionaries. In case of dispute, the Amildar may issue such orders as may be necessary in the interests of public work.

As regards Resolution V, Government find no necessity to amend the existing rule according to which there should be one officiator for each circle. If in any individual case, it works hardship, the remedy lies in amalgamating 2 or 3 small firkas. Each case will have however to be considered on its merits and no general rule can be passed.

The Revenue Commissioner is requested to submit proposals for suitably increasing stationery allowance to Shanbhogs (Resolution VI). In this connection the question of simplifying and reducing the number of the village accounts and supplying printed forms may be considered.

As regards the seventh and last resolution, Government are aware that Shanbhogs are sometimes needlessly summoned to the Taluk Cutcherry, or detained longer than necessary. If the Amildar and Shekdars take full advantage of the opportunity afforded by their tours to examine the village accounts on the spot, the occasions for summoning Shanbhogs to the Taluk Cutcherry would be very few. The Revenue Commissioner is requested to fix in consultation with the Deputy Commissioners, the occasions on which the Shanbhogs' attendance at the Taluk Cutcherry would be absolutely necessary. Endeavours should be made to send them back as quickly as possible. In any case they should not be detained longer than three days at a time.

MYSORE PROVINCIAL SHANBHOGS' CONFERENCE.

(Second Year.)

Resolution. No. I—That Government be requested to revise the Potgi as follows:—

6 per cent on the 1st 1,000 Rupees,
5 per cent on the 2nd 1,000 Rupees,
4 per cent on the 3rd 1,000 Repees,
3 per cent on the 4th 1;000 Rupees,
2 per cent on the 5th 1;000 Rupees, and upwards on the *gross* revenue of the village.

The above remuneration to cover all the items of work devolving on the Shanbhog.

Resolution No. II.—That subordinate taluk officers in all the Departments be directed to address the Shanbhogs by *Yadi* and not *Hukum*.

Resolution No. III.—That Shanbhog should not be punished for unsatisfactory collection work where it is not his fault. According to the rules the collection work devolves on the Patel with whom Shanbhog should co-operate.

Resolution No. IV.—That Patels and village servants be directed to afford necessary assistance to the Shanbhogs in the performance of their duties. Where there is a Talari and a Toti, one of them to be deputed for duty with the Shanbhog.

Resolution No. V.—That the present rule that there should be one officiator for each circle causes hardship and should be altered so that a karawardar shanbhog may be in charge of more circles than one if he is capable of managing them.

Resolution No. VI—That the allowance for stationery be increased, the present scale having been fixed in 1898, as the prices of stationery articles have gone very high and the number of accounts to be rendered has been increased.

Resolution No. VII.—That the occasions and the period for which the Shanbhogs' attendance is required at the Taluk Cutcherry be prescribed and that for attendance on other extra occasions travelling allowance be granted to them.

Resolved.—That the above resolutions be submitted to the Government of His Highness the Maharaja of Mysore over the signature of the President of this Conference.
